<b>Description</b>		
<p>In the Style Manager, select a tag</p> <p>Press "Modify group..." and select "Attach Selected Tag to Symbols" (though it's not only about symbols)</p> <p>A checkbox appears near each symbol or color ramp to help you attach them to the tag (or the inverse)</p> <p>check some items</p> <p>At that moment you realize that you were modifying the wrong tag or you have selected wrong items and you would like to abort the tagging.</p> <p>Currently there's no way to stop the process other than closing the whole dialog. A bit harsh.</p>
