

## QGIS Application - Bug report #19459

### Error on delimited text layer import in DB Manager

2018-07-21 12:45 AM - Eron Lloyd

<b>Status:</b>	Closed	
<b>Priority:</b>	High	
<b>Assignee:</b>		
<b>Category:</b>	DB Manager	
<b>Affected QGIS version:</b>	3.0.3	<b>Regression?:</b> Yes
<b>Operating System:</b>	macOS	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 27287
<b>Description</b>		
<p>I'm having trouble importing layers of delimited text into a PostGIS database in QGIS 3.0.3 on macOS. I get the following error:</p> <div><p><i>An error has occurred while executing Python code:</i></p><p><i>TypeError: setEnabled(self, bool): argument 1 has unexpected type 'QgsVectorLayer'</i></p><p><i>Traceback (most recent call last):</i></p><p><i>File "/Applications/QGIS3.app/Contents/MacOS/../Resources/python/plugins/db_manager/dlg_import_vector.py", line 269, in accept</i></p><p><i>self.reloadInputLayer()</i></p><p><i>File "/Applications/QGIS3.app/Contents/MacOS/../Resources/python/plugins/db_manager/dlg_import_vector.py", line 196, in reloadInputLayer</i></p><p><i>self.checkSupports()</i></p><p><i>File "/Applications/QGIS3.app/Contents/MacOS/../Resources/python/plugins/db_manager/dlg_import_vector.py", line 103, in checkSupports</i></p><p><i>self.chkGeomColumn.setEnabled(allowSpatial and hasGeomType)</i></p><p><i>TypeError: setEnabled(self, bool): argument 1 has unexpected type 'QgsVectorLayer'</i></p><p><i>Python version: 3.6.5 (v3.6.5:f59c0932b4, Mar 28 2018, 05:52:31) [GCC 4.2.1 Compatible Apple LLVM 6.0 (clang-600.0.57)]</i></p><p><i>QGIS version: 3.0.3-Girona Girona, exported</i></p></div> <p>I then tested it in QGIS 2.18.18, and it imports successfully.</p> <p>I checked the import settings between the two and everything looks right, so I'm not sure what else could be causing this.</p>		

#### History

##### #1 - 2018-07-22 01:16 PM - Giovanni Manghi

- Regression? changed from No to Yes
- Priority changed from Normal to High
- Status changed from Open to Feedback

Still broken on 3.2?
