<b>Description</b>		
<p>Most of the [source:trunk/qgis/cmake@11650 [[FindXXX]] modules] for CMake include neither copyright notice nor refer to license. It would be good to make these modules reusable in other OSGeo projects by including the unified copying notice used for CMake modules:</p> <p>Redistribution and use is allowed according to the terms of the BSD license.</p> <p>For details see the accompanying <a href="#">COPYING-CMAKE-SCRIPTS</a> file.</p>

- Resolution set to fixed
- Status changed from Open to Closed

Fixed in commit:3925a089 (SVN r13757).

I took the liberty and set the license of all CMake modules to BSD.
