

QGIS Application - Bug report #19599

locator bar crashes QGIS 3.2.1 GNU / Linux Mint 19

2018-08-11 05:07 PM - salvatore fiandaca

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Actions	
Affected QGIS version:	3.2.1	Regression?: No
Operating System:	GNU/Linux Mint 19	Easy fix?: No
Pull Request or Patch applied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 27426
Description		
just start QGIS Bonn and do ctrl + k the program closes		

History

#1 - 2018-08-12 11:19 AM - salvatore fiandaca

- File simplescreenrecorder-2018-08-12_11.15.17.mp4 added

Object of the problem correction:
locatore bar crash QGIS

#2 - 2018-08-12 02:32 PM - Giovanni Manghi

- Subject changed from local bar crash QGIS 3.2.1 GNU / Linux Mint 19 to locator bar crashes QGIS 3.2.1 GNU / Linux Mint 19
- Status changed from Open to Feedback
- Crashes QGIS or corrupts data changed from No to Yes

How about on a clean profile?

I tried with various data and different projects, QGIS closes as soon as I do ctrl + k.

I add that I find extremely slow the ctrl + k also sooto win 10 but not crasha

I compiled the QGIS 3.3 MASTER, the locator bar works well.

What could I do to solve the problem in 3.2.1?

#8 - 2018-08-14 11:35 AM - Giovanni Manghi

I compiled the QGIS 3.3 MASTER, the locator bar works well.

What could I do to solve the problem in 3.2.1?

does qgis-dev installed on Windows with osgeo4w works well a well?

on windows 10 I have no problems.

I compiled qgis dev on linux mint 19.

3.3.dev qgis works well

qgis 3.2.1 locator bar crashes qgis

in win 10 use OSGeo4w and the first use of the locator bar is very slow but then it works well: this happens for qgis 3.2.1 and 3.3 dev

in linux mint 19 crashes as soon as I do ctrl + k as attached video

#12 - 2018-08-15 12:06 PM - Giovanni Manghi

- Resolution set to fixed/implemented
- Status changed from Feedback to Closed

in linux mint 19 crashes as soon as I do ctrl + k as attached video

but as in master is fixed then... is fixed. Can't find any probable commit for this fix, so not sure if has been backported for 3.2.2
