

QGIS Application - Bug report #19604

[DXF export] Labels are exported even if the entity is not visible

2018-08-13 09:07 AM - Loïc BARTOLETTI

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	DXF export	
Affected QGIS version:	3.5(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 27431
Description		
<p>When exporting DXF, labels of entities that are not displayed are still exported (but the entity no). This happens when they are not visible due to a filter made at the layer style level.</p> <p>An example with three linestring, two labelled with "F%" and one with "G%" only "F%" labels should be exported.</p> <p>Tested on 2.18 and 3</p>
