Description

Is it possible to have the 'zoom to postcode' plugin available in QGIS 3.*?

we used it extensively in previous versions and would really like it to be available in QGIS 3

The question has been asked on the plugin bugtracker: https://github.com/mattkernow/ZoomToPostcode-QGIS-Plugin/issues/2

Hopefully the original author will respond soon, otherwise a volunteer needed to find/fund a new author. It would be great to implemented the new version as a Locator plugin.

This bugtracker is designed for the plugin manager, not the plugins themselves.
