QGIS Application - Bug report #19635
rule-based style

2018-08-16 08:33 PM - Cody Johnson

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Symbology			
Affected QGIS version:	2.18.22		**Regression?:**	No
Operating System:	linux ubuntu 16.04		**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	invalid
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	27462

Description

I am trying to added labels to contours. I wanted to remove the part of the contour under the label, so I followed the instructions here: [[https://gis.stackexchange.com/questions/52858/how-to-interrupt-contour-lines-beneath-elevation-labels-instead-of-using-label]]

The instructions work, except it seems that rendering the sections transparent is dependent on the contour "level" field. Only contours with levels in [-5, -8] have transparent sections underneath the labels, the rest just have the regular line.
