QGIS Application - Bug report #19643
Bug while modifying name of the project in the Project Properties | General dialog

2018-08-18 04:31 PM - Stephen Sinclair

Status:	Closed		
Priority:	Normal		
Assignee:	Alessandro Pasotti		
Category:	Project Loading/Saving		
Affected QGIS version:	3.2.1	**Regression?:**	No
Operating System:	Ubuntu 18.04 LTS	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	27470

Description

Modifying an already existing project name in the **Project Properties | General** dialog is very awkward due to a small bug:

1. you select the part of the already existing name you want changed, let's say it is **in the middle** of the old title
2. you begin typing the new name
3. > the first character deletes/replaces the selected part of the previous name
4. BUT the cursor is now at the end of the title instead of staying where it belonged (in the middle of the title)

Not a big one, but very annoying.

I am using the very last version of QGis (1edf372, downloaded this morning)
