

QGIS Application - Bug report #19684

The Extract layer extent algorithm should not take table in input

2018-08-24 02:55 PM - Harrissou Santanna

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Processing/Core	
Affected QGIS version:	3.3(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 27509
Description		
Geometryless layer should not be allowed as input data to extract extent		

History

- Status changed from Open to Feedback

Maybe that algorithm can be removed? It is redundant, since all that it does can be done with the "layer from extent" one

#2 - 2019-01-30 11:25 PM - Nyal Dawson

They address different use cases though -- for models, wouldn't we need both options?

#3 - 2019-02-26 06:52 PM - Harrissou Santanna

- Status changed from Feedback to Open

#4 - 2019-02-26 10:34 PM - Nyal Dawson

- Resolution set to fixed/implemented

- Status changed from Open to Closed

This was fixed in 3.6
