

QGIS Application - Bug report #19686

[Processing] Field calculator algorithm does not use the selected layer as default layer input

2018-08-24 03:36 PM - Harrissou Santanna

Status:	Closed	
Priority:	Normal	
Assignee:	Alexander Bruy	
Category:	Processing/Core	
Affected QGIS version:	3.3(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	Yes	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 27511
Description		
Unlike the other algorithms that use the selected layer as active value of their drop-down input layer parameter, the Field calculator algorithm seems to use another layer (maybe the first loaded?)
