

QGIS Application - Feature request #19687

[Expression] Allow storage of custom functions in the project they are used

2018-08-24 05:15 PM - Harrissou Santanna

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Expressions	
Pull Request or Patch supplied:	No	Resolution:
Easy fix?:	No	Copied to github as #: 27512
Description		
<p>The docs states that custom functions created through the Function Editor dialog are stored in the python/expressions folder and you should remind to share them with project, otherwise it may be broken.</p> <p>Could be nice to have them stored in the project when they are used (we now have models stored in project, don't we?)</p>
