

QGIS Application - Bug report #19723

Exporting as DGN with QgsVectorFileWriter.writeAsVectorFormat gives an error with code 3

2018-08-28 09:34 AM - Kadir S

Status:	Closed	
Priority:	Normal	
Assignee:	Even Rouault	
Category:	Data Provider/OGR	
Affected QGIS version:	3.3(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 27548
Description QgsVectorFileWriter.writeAsVectorFormat(layer, target_dgn, 'utf8', None, 'DGN', skipAttributeCreation = True) writeAsVectorFormat gives code 3 error (ErrCreateLayer) with 'DGN' parameter and exports nothing. When changed into 'dgn', it works. It's the same in QGIS 3.2.1. QGIS 3.2.1 gives (3, 'Creation of layer failed (OGR error:)') error.
