QGIS Application - Bug report #19787
MetaSearch: Use Title when new OWS connections are added to QGIS user profile

2018-09-06 02:42 PM - Stefan Blumentrath

Status:	Closed		
Priority:	Normal		
Assignee:	Tom Kralidis		
Category:	MetaSearch Catalogue Client		
Affected QGIS version:	3.4.4	**Regression?:**	No
Operating System:		**Easy fix?:**	Yes
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	27612

Description

Currently, MetaSearch names all added OWS connections e.g. "WMS from MetaSearch".
Would be useful / more convenient if the OWS title would be used instead.

Can be discussed if this is a bug or a feature request...

History

#1 - 2018-09-24 02:00 AM - Tom Kralidis

- Subject changed from MetaSearch: Use Title wen new OWS connections are added to QGIS user profile to MetaSearch: Use Title when new OWS connections are added to QGIS user profile

#2 - 2018-09-24 02:08 AM - Tom Kralidis

@Stefan: in the Settings tab under 'Connection Naming' there are options to set the connection name based on the OWS Service Title. Does this help?

#3 - 2019-01-24 06:53 PM - Alexander Bruy

- Resolution set to worksforme
- Status changed from Open to Closed

Closed as "worksforme" because MetaSearch provides option to name connections using their title. Please reopen if necessary

#4 - 2019-01-24 11:47 PM - Stefan Blumentrath

- Status changed from Closed to Reopened

Sorry for the late reply. I have not been able to update QGIS for a while in order to test a recent version...

Unfortunately, the option has no effect for me on Win 10.
If I add a WMS from Norwegian CSW, the title is for all three alternatives in this option just "wms from MetaSearch"...

#5 - 2019-01-25 07:02 PM - Giovanni Manghi

- Status changed from Reopened to Feedback

- Resolution deleted (worksforme)

- Affected QGIS version changed from 3.0.0 to 3.4.4

I assume you tested on 3.4.4?

#6 - 2019-02-04 09:19 PM - Tom Kralidis

It turns out that we removed this functionality long ago. For reference:

- https://lists.osgeo.org/pipermail/qgis-developer/2014-August/034415.html
- https://github.com/geopython/MetaSearch/commit/7ad8f0fbe69e3fdb7964b2098a8d7ed15cd8aef2

But it looks somehow this got back into master at https://github.com/qgis/QGIS/commit/36e24f6c10b8d7df5d6451f5c50e1ee94d9fc1b9

I will remove. Thanks for the report.
