

QGIS Application - Bug report #19800

Undesired text box next to map canvas cursor

2018-09-09 10:05 PM - Charles Clancy

Status: Closed	
Priority: Normal	
Assignee:	
Category: Map Canvas	
Affected QGIS version: 3.2	Regression?: No
Operating System: Win 7 x 64	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: invalid
Crashes QGIS or corrupts data: No	Copied to github as #: 27625
Description	
<p>A small white text box recently appeared next to my cursor. I don't know what action caused it to appear, and I can't seem to get rid of it. The text inside the box doesn't relate to any layers in the map. In the picture attached the value in the box is not a valid elevation. What caused this and how do I suppress it?</p>	

History

#1 - 2018-09-10 01:12 AM - Nyal Dawson

- Status changed from Open to Closed

You've turned on the "map tips" option -- look in the toolbars for the tips action and unselect it. (For user assistance like this gis.stackexchange.com is more appropriate)

#2 - 2018-09-10 10:32 AM - Giovanni Manghi

- Resolution set to invalid
