QGIS Application - Bug report #19821
Ctrl-f (filter tool) doesn't show embedded forms from 1:n relations anymore

2018-09-11 04:05 PM - Andreas Neumann

Status:	Closed			
Priority:	High			
Assignee:	Matthias Kuhn			
Category:	Relations			
Affected QGIS version:	3.3(master)	**Regression?:**	Yes	
Operating System:	any	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	worksforme	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	27645	

Description

In QGIS 3.0.x, embedded forms (1:n relations) are displayed when filtering/selecting features with ctrl-f. They have a special mode with aggregates.

Starting from version 3.2.x and also in master (3.3x) these embedded forms are missing --> as a result one cannot filter using 1:n relations anymore.

It is a regression.

See attached screenshot to show the same model, once opened in 3.0x and the other time in QGIS master.

History

#1 - 2018-09-11 04:05 PM - Andreas Neumann

Tested on Linux and Windows. Problem appears on both platforms.

#2 - 2019-03-28 11:55 AM - Andreas Neumann

- *Resolution set to worksforme*

- *Status changed from Open to Closed*

Seems to work in 3.4 and 3.6
