

QGIS Application - Feature request #19903

Relation reference widget : data is limited to the first 100 items, make it configurable in the widget options

2018-09-20 03:55 PM - jd lom

Status:	Open	Resolution: Copied to github as #: 27727
Priority:	Normal	
Assignee:		
Category:	Edit widget	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
The combobox of relation reference widget displays the first 100 items. However the autocompletion is working great.		
The attached video shows the behavior on version 3.2.2 and 2.18.11.

I think this is a feature not a bug - see the description of the pull request:

<https://github.com/qgis/QGIS/pull/5440>

#2 - 2018-09-21 09:24 AM - jd lom

Indeed.

So it's not a bug but some users will be confused as reported here :

<https://github.com/qgis/QGIS/pull/5440#commitcomment-29908387>

#3 - 2018-09-21 11:43 AM - Alessandro Pasotti

- Subject changed from Relation reference widget : data is limited to the first 100 items to Relation reference widget : data is limited to the first 100 items, make it configurable in the widget options
- Tracker changed from Bug report to Feature request
