QGIS Application - Bug report #19945
ogr based tools cannot output anymore to temp files

2018-09-25 08:01 PM - Giovanni Manghi

Status:	Closed			
Priority:	High			
Assignee:	Nyall Dawson			
Category:	Processing/OGR			
Affected QGIS version:	3.3(master)	**Regression?:**	Yes	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	invalid	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	27767	

Description

Tested the buffer tool, but possibly all others are affected. This is regardless of the input data type. Example:

ogr2ogr /tmp/processing_db57843afc44487c9e08a83e234924aa/bfb8be3fac3446a2b0be83fc1e1050ba/OUTPUT.shp /home/giovanni/Desktop/teste.gpkg -dialect sqlite -sql "SELECT ST_Buffer(geom, 1.0) AS geom, fid,gid,fips,iso2,iso3,un,name,area,pop2005,region,lon,lat,id,dadsadsa FROM 'teste'" -f "ESRI Shapefile"
GDAL command output:
ERROR 1: Failed to create file /tmp/processing_db57843afc44487c9e08a83e234924aa/bfb8be3fac3446a2b0be83fc1e1050ba/OUTPUT.shp: No such file or

or2ogr cannot write to "/tmp/processing_db57843afc44487c9e08a83e234924aa/bfb8be3fac3446a2b0be83fc1e1050ba/" because the folder does not exist beforehand.

I can't reproduce -- can you post steps to reproduce? Can you create folders under tmp?

#6 - 2018-09-28 05:27 PM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Feedback to Closed

Cannot replicate anymore... weird, I didn't even updated master since I reported this.
