Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 10260
Description	
<p>Dear Sir / Madam</p> <p>First a comment on a brilliant package.</p> <p>Second I have a New Garmin that uses USB connection and the QGis only has the older COM port designation. Any idea if there will be changes and when.</p> <p>Second I have registered for the community and cannot get into the site.</p> <p>I have received the confirmation from Qgis but when I enter the confirmed name and password I cannot proceed</p> <p>Any suggestions</p> <p>Many Thanks</p> <p>Kind Regards</p> <p>Stuart Gray</p>

the report is misplaced. I think the good name should refer to GPS USB port, and I think this is an useful (probably easy) improvement.

The request for a usb entry can be an enhancement for the next version of qgis...

What is the qgpbabel command line that you use to access the GPS on a USB port under windows?

#3 - 2006-09-19 05:31 PM - anonymous -

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in svn

#4 - 2009-08-22 12:46 AM - Anonymous
