Crashes QGIS or corrupts data:		**Copied to github as #:**	27937

Description

Hi everybody,

topological modification using the vertices tool does not work.

If I select the vertex that I want to move, Qgis allows me to select the vertices but I can not move them.

I have the same problem in both version 3.0.0 and 3.2 Bonn.

I hope someone can help me.

Thanks

- Category changed from Vectors to Digitising

Works fine here on QGIS master. A screenshot of your snapping options and a screencast that shows how are you using the tools would help understand your issue.

#2 - 2019-02-23 08:37 PM - Jürgen Fischer

- Resolution set to no timely feedback
