QGIS Application - Bug report #20192
qgis 3.2 crashing when applying a changed rule based style on a geopackage stored on a network

2018-10-23 05:27 AM - damien stephens

Status:	Closed			
Priority:	High			
Assignee:				
Category:	Symbology			
Affected QGIS version:	3.2.3	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	no timely feedback	
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	28013	

Description

Adding a new rule based style to an existing style file on geopackage layer. QGIS crashes when Applied.

History

#1 - 2018-10-23 10:20 AM - Giovanni Manghi

- Status changed from Open to Feedback

- Category changed from Forms to Symbology

It happens only if the datasource is o a network? Is the style saved in the db or a separate file? Can you share sample data and styles?

#2 - 2018-11-08 01:31 PM - Giovanni Manghi

Please try on QGIS 3.4.1, if the issue is still valid change the affected version, thanks.

#3 - 2019-02-11 04:16 AM - Nyall Dawson

- Resolution set to no timely feedback

- Status changed from Feedback to Closed
