

QGIS Application - Bug report #20259

Crash

2018-10-29 02:34 PM - Andrew Shanin

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Unknown	
Affected QGIS version:	3.4.0	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch applied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 28080

Description

User Feedback

Nothing to do. Just crash!

Some more info is needed. It crashes on start? or after starting after trying do something?

#2 - 2018-10-29 11:11 PM - Ian Erickson

I can confirm this behavior. Upon opening moving the mouse to hover over the Browser panel, the application crashes. No interaction with any of the items is required. Opening QGIS and then dismissing the Browser panel without hovering over the tree control seems to prevent the crash.

#3 - 2018-10-30 10:17 AM - Giovanni Manghi

Try with a clean profile.
