Crashes QGIS or corrupts data:	No	Copied to github as #: 28092
Description		
A working WMS is no longer displayed under QGIS 3.4.0. The same service works fine under 3.2.3. Under 3.4.0 only the legend is shown. However, the actual service is not displayed. Example link: https://www.wms.nrw.de/geobasis/wms_nw_dtk

Same with https://www.wms.nrw.de/geobasis/wms_nw_dop.

The wms protocol window shows "...&STYLES&FORMAT=..." instead of "...&STYLES=&FORMAT=..."

Seems the "=" character is missing in QGIS 3.4 if no default style is assigned.

Choosing the default layer (ID 4 in wms_nw_dop) displays the wms image.
