QGIS Application - Bug report #20301
Off-Line editing should NOT ask to fill manually the PK field

2018-10-31 06:06 PM - Giovanni Manghi

Status:	Open			
Priority:	High			
Assignee:				
Category:	C++ plugins/Offline editing			
Affected QGIS version:	3.4.0		**Regression?:**	Yes
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	28122

Description

QGIS 2.18:

add a postgis layer
put it in off-line mode
edit it (add feature) > is NOT asked to fill (not mandatory) the field that represent the PK in pgsql
synchronize it back > all OK (the new feature is given a proper value for the PK field)

QGIS 3.4:

add a postgis layer
put it in off-line mode (spatialite or geopackage)
edit it (add feature) > the field that represent the PK is marked as mandatory and the user must fill it manually to be able to synchronize
back. This of course can cause errors.

Also when using GPKG: #20276
