

QGIS Application - Bug report #20401

QgsLayoutItemLegend::adjustBoxSize does not work for legend created from pyqgis

2018-11-08 08:49 AM - Peter Petrik

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	3.4.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 28221
Description		
<p>When QgsLayoutItemLegend is created directly from plugin, adjustBoxSize does not work. So when positioning the item, the size is always 0 and it can fall off the visible screen.</p> <p>Maybe worth to add dpi parameter to adjustBoxSize and do not force to call paint() manually?</p> <p>Possible workaround here:</p> <p>https://github.com/lutraconsulting/qgis-crayfish-plugin/commit/e935bb1ebeb4c4131c2e96d361d7184073677ca2</p>
