

QGIS Application - Bug report #20417

Advanced Digitizing Panel

2018-11-08 06:04 PM - Nicolas Cadieux

Status: Open	
Priority: Normal	
Assignee:	
Category: GUI	
Affected QGIS version: 3.4.1	Regression?: No
Operating System: Windows 10-64	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 28237

Description

When snapping the Advanced Digitizing Panel to bottom half or the top half of another panel, it is no longer possible to resize both panels in the y plane. You can only resize in the x plane. Limited resizing is possible only if a vector layer and only if an advanced digitizing tool are selected.
