

QGIS Application - Bug report #20445

fails to generate virtual geometry layer based on virtual wkt field

2018-11-11 10:37 AM - Kepes Ádám

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Virtual Layers	
Affected QGIS version:	3.4.1	Regression?: No
Operating System:	windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 28265
Description		
<p>I would very like to generate a wkt field based on complicated expression on a delimited text layer, and auto make a geometry layer based on it! After i set the layer it is good, but reloading qgis makes a problem with it.</p> <p>I recorded it to show detailed.</p> <p>please see video on: https://www.dropbox.com/s/xhgt54q5bx922b3/qgis.mp4?dl=0</p> <p>How could i do it? thank you for your help!</p>

After i set the layer it is good, but reloading qgis makes a problem with it.

I recorded it to show detailed.

please see video on:

How could i do it?
thank you for your help!

And i have tried it on the latest 3.4.1 and another versions, but still not good.
