

QGIS Application - Bug report #20565

QGIS 3.4.1 crashes when trying to select SVG everywhere

2018-11-20 04:12 PM - Peter Cornelissen

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Symbology	
Affected QGIS version:	3.4.1	Regression?: Yes
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 28385
Description		
<p>It does not seem to matter where, but whenever I try to use an SVG marker, fill or symbol, QGIS hangs and after a minute or two I get the open to wait or close the program. Selecting wait does not help as the program does not respond, even after leaving for half hour.</p> <p>I am using Windows 10 64 bit version of 3.4.1</p>

Hi

Yes, opening with a new profile seems to have done the trick, thanks.

Peter
