| <b>Description</b>   |      |   |
| <p>There are inconsistencies in the GUI, when using it with a non-en locale (tested in Italian): in the table editor one must put "." for decimal, while in options (eg radius for snapping) "," is not accepted and "," must be used instead</p> <p>The behaviour should be consistent, and follow the locale</p> |      |   |
