

QGIS Application - Bug report #20604

QGIS crashed

2018-11-23 11:29 AM - Emese Soltész

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Digitising	
Affected QGIS version:	3.4.1	Regression?: No
Operating System:	Windows 7	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: no timely feedback
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 28424
Description		
User Feedback		
My QGIS crashes all the time. I was adding new line features before and then I added a new polygon feature and then now I tried to add a ring. A random crash like this happened with me in the past few days more than 5-6 times a day. I have no idea if I am doing something wrong or my laptop is not capable of running the program. Dell Latitude E6430, Windows 7		
Report Details		
Crash ID: 9bc0371d12a0020387a1191fddb061ea5ebe77a		
Stack Trace
