

QGIS Application - Bug report #20606

'\n' button in function editor generates invalid code

2018-11-23 12:34 PM - Patrick Dunford

<b>Status:</b>	Open	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Field calculator	
<b>Affected QGIS version:</b>	3.4.1	<b>Regression?:</b> No
<b>Operating System:</b>	Debian 9.6 / KDE	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 28426
<b>Description</b>		
<p>In the function editor for captions you have a button clearly labelled '\n' but when you press it, it outputs '\&amp;n'. The difference is the former is acceptable and the latter is invalid as far as the function editor is concerned.</p>

Sorry, correction. It doesn't create invalid code. The preview outputs a different result, like the literal ?n instead of a newline.
