

QGIS Application - Bug report #20619

SLD load problem

2018-11-24 06:03 PM - Eduardo Martín

Status: Feedback	
Priority: High	
Assignee:	
Category: Symbology	
Affected QGIS version: 3.4.1	Regression?: Yes
Operating System: win10 x64	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 28439
Description	
<p>I use a SLD file to define styles over a polygon layer, but the results are different depending on the QGIS version: 2.18.25 and 3.4.1 don't work (missing layer cause of styling), 2.18.4 and 3.2.3 work.</p> <p>Even, I tried to create a SLD on 2.18.25 and load over the same layer, the styling doesn't work.</p> <p>I attached gif example of a success and a failed cases.</p> <p>Thanks for your time and help developing this great software!</p> <p>Regards :)</p>	

History

#1 - 2018-11-25 07:44 PM - Giovanni Manghi

- Regression? changed from No to Yes
- Affected QGIS version changed from 2.18.25 to 3.4.1
- Priority changed from Normal to High

#2 - 2019-05-23 01:59 PM - Alexander Bruy

- Status changed from Open to Feedback

Please provide test data and steps to reproduce
