

QGIS Application - Bug report #20651

Incorrect WMS/Mapserver Extent after Upgrade

2018-11-28 03:39 AM - Daniel McCulloch

Status:	Open	
Priority:	Normal	
Assignee:	Sandro Mani	
Category:	Web Services clients/ArcGIS	
Affected QGIS version:	3.4.1	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 28471
Description		
<p>I recently Upgraded from version 3.0.1 to 3.4.1 and have noticed an issue with a WMS layer I access.</p> <p>The same issue occurs when the service is added as a MapServer Layer.</p> <p>Previously the extent was retrieved as per that which the service page describes but now it requests a slightly smaller extent.</p> <p>I have checked other services from the same and other servers and they are functioning correctly.</p> <p>The WMS can be accessed @</p> <p>https://maps.six.nsw.gov.au/arcgis/services/public/NSW_Base_Map/MapServer/WMSServer?request=GetCapabilities&#38;service=WMS</p>
