

QGIS Application - Feature request #2072

Treeview-GUI for SVG symbol choice

2009-11-09 01:46 AM - Andreas Neumann

Status:	Closed	
Priority:	Low	
Assignee:	Tim Sutton	
Category:	GUI	
Pull Request or Patch supplied:	No	Resolution: duplicate
Easy fix?:	No	Copied to github as #: 12132

Description

The existing icon list choice for SVG symbols is not very well organized and can get slow as there are more and more symbols added.

A treeview symbol selection widget would help to solve this issue. It should correspond to the directory structure in the svg symbol directory.

It would be great if not all symbols are loaded at once, but maybe only if the tree-leaf is unfolded. That way only the directory structure would be read, but not all individual symbols.

History

#1 - 2011-11-09 07:13 AM - Alexander Bruy

- Pull Request or Patch supplied set to No
- Resolution set to duplicate
- Status changed from Open to Closed

Probably duplicate #1066
