

QGIS Application - Feature request #20722

Mesh layers could show 'mesh' icon in Layers panel?

2018-12-04 05:45 PM - Richard Duivenvoorde

Status:	Closed	
Priority:	Normal	
Assignee:	Peter Petrik	
Category:	Data Provider/MDAL	
Pull Request or Patch supplied:	Yes	Resolution: fixed/implemented
Easy fix?:	Yes	Copied to github as #: 28542
Description		
<p>While not important for usability...</p> <p>See screenshot: both raster and vectorlayer have an icon in the 'Layers panel'.</p> <p>In the browser a mesh layer has a nice looking unique icon (upper part of screenshot). Would be cool if that icons was also to be used in the Layers panel.</p> <p>Or is there a special reason to NOT use it there?</p>		

History

#1 - 2019-01-25 03:02 PM - Peter Petrik

- Resolution set to fixed/implemented
- Easy fix? changed from No to Yes
- Pull Request or Patch supplied changed from No to Yes
