

QGIS Application - Bug report #20733

Attribute table: Order of columns doesn't persist

2018-12-05 04:41 PM - Manuel K

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Attribute table	
Affected QGIS version:	3.5(master)	Regression?: Yes
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 28553
Description		
<p>If the order of columns is changed ("Organize Columns...") the changes are lost after closing and reopening the table.</p> <p>For example, if the "Actions" column is moved to the complete left, it moves back to ist original location after closing the table.</p>
