QGIS Application - Bug report #20738
Unable to save Postgis layers as Shapefiles

2018-12-06 11:00 AM - Cem Eraslan

Status:	Closed		
Priority:	High		
Assignee:			
Category:	Vectors		
Affected QGIS version:	3.4.2	**Regression?:**	Yes
Operating System:	Windows 10	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	no timely feedback
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	28558

Description

When I try to save some selected geometry as shapefile or other format, qgis stops responding. You need to stop the process at task manager.

History

#1 - 2018-12-06 11:03 AM - Giovanni Manghi

- Priority changed from Normal to High

- Status changed from Open to Feedback

- Category changed from Data Provider/PostGIS to Vectors

Please:

try on a new/clean profile (no 4rd party plugins)

add detailed steps

attach sample project with data

#2 - 2019-02-24 01:06 AM - Giovanni Manghi

- Resolution set to no timely feedback

- Status changed from Feedback to Closed
