

QGIS Application - Bug report #20778

Cannot delete individual vertex in lines

2018-12-11 05:45 PM - Matthew Bodnar

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Editing	
Affected QGIS version:	3.4.2	Regression?: No
Operating System:	WIN 10.0.17134 Build 17134	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 28598
Description		
<p>Hi,</p> <p>I cannot delete individual vertex in this topo contour file with the vertex editor. I have to cut the line into pieces and delete the smaller segment entirely.</p> <p>I receive a runtime-error for some reason, not sure if this is related (screenshot attached).</p> <p>I have attached the data as a QLR, I apologize if this is due to my data but I thought there may be a editing issue somewhere.</p> <p>Regards</p>

You need to attach SMM_Kluane_SB_5m Shape file (shp, shx, dbf and prj)

#2 - 2018-12-11 06:57 PM - Matthew Bodnar

- File 05_Issues.zip added

Hi,

The shapefile was too big so I had to clip a portion, export as Geopackage and put into this compressed folder.

I still cannot delete a node/vertex. I can highlight a vertex blue and press the delete key... it will run the script but the vertex remains.

#3 - 2018-12-11 10:32 PM - Giovanni Manghi

works as expected here (QGIS master, Win10), try with a new/clean profile.

Yes, that has solved it. My apologies. I do not know why the .ini for the profile is corrupted..

Thank you
