Pull Request or Patch supplied:	No		**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	28612

Description

Good afternoon

I am doing a project for one of my class and for some reason the "edit line" (I have the French version so I don't know the actual name)
doesn't work. I am in edit mode and when I click the button it starts charging then the project doesn't answer and the only thing I can do is
to close it.
I don't really know what to do.
