Pull Request or Patch supplied:	No	Resolution:
Easy fix?:	No	Copied to github as #: 28638
Description		
<p>Currently the field of view in 3D maps seems fixed to 45 degrees (https://github.com/qgis/QGIS/blob/master/src/3d/qgs3dmapscene.cpp#L72).</p> <p>It would be great to support changing the field of view, to allow creating panoramic views (up to 360°) around a point (in 3D Map View and in 3D Map layout item).</p> <p>Thanks</p>
