QGIS Application - Bug report #20829
Snapping options in meters rounded to integers

2018-12-18 09:09 AM - Hugo Mercier

Status:	Closed			
Priority:	Normal			
Assignee:	Loïc BARTOLETTI			
Category:	GUI			
Affected QGIS version:	3.4.2	**Regression?:**	Yes	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	28648	

Description

Snapping options expressed in map units (meters) in basic mode (not advanced) are rounded to integers, which may be a problem if you need to snap a something under a meter (say 10 cm), that gets rounded to 0.

In advanced mode, there is no rounding and it works fine.

My environment has a French local, but I also tested by launching QGIS with LANG=C and observe the same problem.
