

QGIS Application - Bug report #20830

When QGIS is updated to version 3.2, SQL triggers cannot be used.

2018-12-18 09:23 AM - I cc

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Data Provider/MSSQL	
Affected QGIS version:	3.2.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 28649
Description		
<p>For some needs, I input data in the QGIS interface and use triggers in SQL server for background automatic processing.</p> <p>Prior to version 3.2, SQL triggers were working properly.</p> <p>When QGIS is updated to version 3.2, SQL triggers cannot be used.</p> <p>I don't know what this is based on.</p> <p>Can we go back to the previous mode and run triggers in the SQL SERVER background after entering data in the QGIS interface?</p> <p>Thank you for your hard work!</p>
