Description		
sorry, but in french is easier Probleme ouverture qgis 3.4.3 ouverture, double clic sur QGis dans application. Séquence d'ouverture normale mais blocage sur fenêtre d'arrivée, avec message "qgis prêt". Aucune commande ne répond, impossible d'ouvrir un projet. Faut cliquer sur le bureau, alors apparait la fenêtre de dialogue de "fermer un projet", cliquer sur 'cancel' et Qgis devient opérationnel... bonne année...
