# QGIS Application - Bug report #20984 Missing method QgsGeometry::fromPoint

2019-01-13 01:51 PM - Francisco Raga

Status: Rejected Priority: Normal

Assignee:

Category: Vectors

Affected QGIS version: 3.5 (master)

Operating System:

Pull Request or Patch shapplied:

Crashes QGIS or corrupts data:

Regression:

No

Resolution:

invalid

Copied to github as #: 28803

### **Description**

I don't know the reason but there is no method to change the geometry of points with z value! It's a bug or a change contemplated in the roadmap

### History

## #1 - 2019-01-13 01:54 PM - Giovanni Manghi

- Priority changed from Low to Normal
- Status changed from Open to Feedback
- Category changed from 3D to Vectors

Questions of this type of are better asked in the developers mailing list.

### #2 - 2019-01-13 10:54 PM - Nyall Dawson

- Resolution set to invalid
- Status changed from Feedback to Rejected

- There's dozens of methods to do this - e.g. https://ggis.org/pyqgis/3.4/core/Point/QgsPoint.html#qgis.core.QgsPoint.setZ
