Category:	Build/Install			
Affected QGIS version:	3.4.3	**Regression?:**	No	
Operating System:	Windows x64	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	invalid	
Crashes QGIS or corrupts data:		**Copied to github as #:**	28804	

Description

I just tried to download QGIS with osgeo4w and detected that pip isn't required for QGIS, is this intentional or mistake?

History

#1 - 2019-01-14 01:46 PM - Jürgen Fischer

- Resolution set to invalid

- Status changed from Open to Rejected

QGIS doesn't require pip.
