<b>Description</b>		
<p>In the "Database styles manager" dialog that opens when loading a style. The Buttons "Abbruch" (Cancel) and "Stil laden" (load style) are placed in the wrong order when compared to the rest of QGIS and Windows in general.</p> <p>Not a huge issue, but it can be annoying when loading a couple of styles, because the open file dialog where you select your .qml file has the "OK" button on the left side.</p>
