QGIS Application - Bug report #21078
Layout Attribute Table 'Filter with' not working with variables

2019-01-23 12:09 PM - Angus McBride

Status:	Closed			
Priority:	Normal			
Assignee:	Nyall Dawson			
Category:	Map Composer/Printing			
Affected QGIS version:	3.4.4	**Regression?:**	Yes	
Operating System:	Windows 7	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	28896	

Description

Within the layout composer, the 'filter with' feature on attribute tables no longer works for with @... variables.
I have tested this with @layout_name, @atlas_pagename, @atlas_featureid, @project_crs and @project_author variables but assume it doesn't work with any of them.

The variables and their values can be seen in the expression builder, but when used in the filter itself it does not function as expected.

This used to work in previous versions.
