

QGIS Application - Bug report #21081

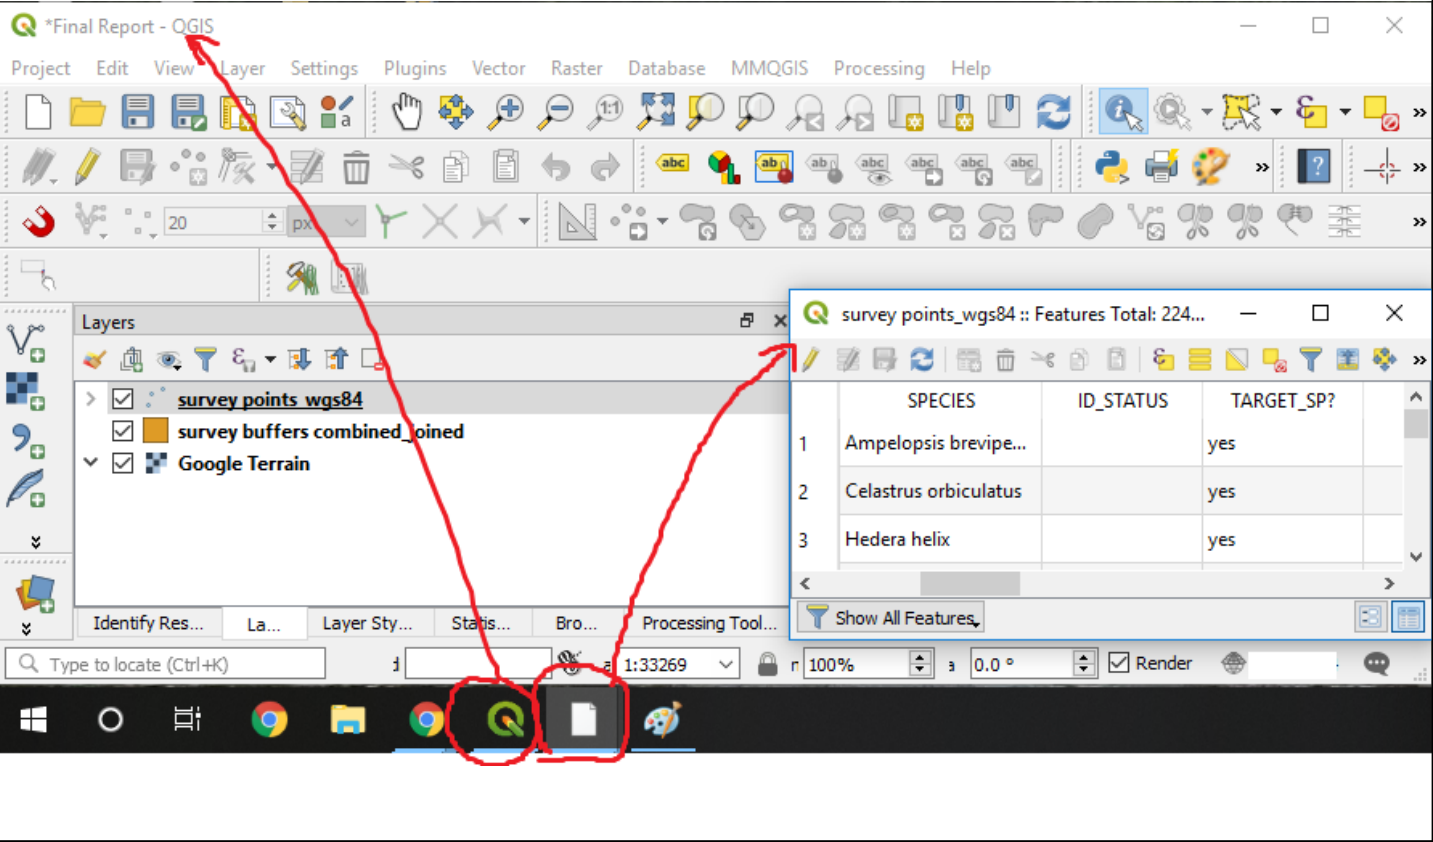

QGIS logo not displayed on taskbar for additional windows

2019-01-23 08:31 PM - Carolyn Krause

Status:	Open	
Priority:	Low	
Assignee:	Jürgen Fischer	
Category:	Windows Package	
Affected QGIS version:	3.4.3	Regression?: No
Operating System:	Windows 10 Pro	Easy fix?: No
Pull Request or Patch supplied:	no	Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 28899

Description

Windows other than the main QGIS project window display a blank page image on the taskbar instead of the QGIS logo. This happens for anything that opens up a separate window, including attribute tables, print layouts, and processing algorithms. The main QGIS project window correctly displays the QGIS logo.
