Please try with a new/clean profile and 3.4.4.

yeuppe.

#5 - 2019-01-30 10:23 PM - Anna Kear

Have never had any add-on's/extensions, in fact.

Can you share a project & data which we can use to reproduce the issue?

#8 - 2019-01-30 10:50 PM - Anna Kear

Meaning I have never had any un-clean version, yet it still, always, manages to crash in on itself.

Neil, thanks for responding. As the example I'm using right now contains sensitive information and corporate material, is there anywhere I can hand it over to you privately, like an email address? And please do not share it with anyone other than the team working to fix this. Kind regards, Anna.
