Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	29106

Description

It is not clear which method is used for resampling when changing cell size from the 'save as' dialog box. Some claim is bilinear some near.

Resampled image from 'save as' was compared with both linear resampled and near resampled images. From the comparison it is detected that none of them is equal with the resampled image from 'save as'.

History

#1 - 2019-02-16 10:50 AM - Giovanni Manghi

- Priority changed from High to Normal

- Subject changed from Define resampling method from layer 'save as' dialog box to Allow choose resampling method from raster 'save as' dialog box

- Tracker changed from Bug report to Feature request
