

QGIS Application - Bug report #21292

Qgis 3 temporary data stay in /tmp even if Qgis is closed

2019-02-16 12:55 PM - Sylvain POULAIN

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	3.4.4	Regression?: No
Operating System:	Archlinux	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 29110
Description Since Qgis 3, some datas stay in /tmp/ in Linux, is this a normal behaviour ? I never restart my system or once a month and I notice that sometimes I have a ton of these files and folders which could crash qgis. Removing files and folder solve the problem.
